One important building at the site is several stories, tall, wide, massive, ~~enormous~~, surrounded, landscaped, secluded, confidential, feels "like a fiscal quarter;" contains various categories of people who in general are circumspect, sequestered, & have hidden agendas, & are to some degree amoral; these categories of people include service providers, intermediaries, and contractors, who are the most important. A clandestine feel seems to be present.

Building is a ~~controlling~~ central ~~controlling~~
point for a worldwide network of operatives which controls
very strictly. Operatives collect information on a variety of
foreign topics ~~by means of~~ using electronic equipment + computers.
